

# Investor Presentation August 2020

### **Important Notice**

This presentation shall be read in conjunction with Mapletree Industrial Trust's ("MIT") financial results for First Quarter Financial Year 2020/2021 in the SGXNET announcement dated 21 July 2020.

This presentation is for information only and does not constitute an offer or solicitation of an offer to sell or invitation to subscribe for or acquire any units in Mapletree Industrial Trust ("Units").

The past performance of the Units and MIT is not indicative of the future performance of MIT or Mapletree Industrial Trust Management Ltd. (the "Manager").

The value of Units and the income from them may rise or fall. Units are not obligations of, deposits in or guaranteed by the Manager or any of its affiliates. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested. Investors have no right to request the Manager to redeem their Units while the Units are listed. It is intended that unitholders may only deal in their Units through trading on the Singapore Exchange Securities Trading Limited ("SGX-ST"). Listing of the Units on the SGX-ST does not guarantee a liquid market for the Units.

This presentation may also contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of risks, uncertainties and assumptions. Representative examples of these factors include general industry and economic conditions, interest rate trends, cost of capital, occupancy rate, construction and development risks, changes in operating expenses (including employees wages, benefits and training costs), governmental and public policy changes and the continued availability of financing. You are cautioned not to place undue reliance on these forward-looking statements, which are based on current view of management on future events.

Nothing in this presentation should be construed as financial, investment, business, legal or tax advice and you should consult your own independent professional advisors.

# OUTLOOK AND STRATEGY

Data Centres, 7337 Trade Street, San Diego

### Singapore Industrial Property Market

#### DEMAND AND SUPPLY FOR MULTI-USER FACTORIES

#### DEMAND AND SUPPLY FOR BUSINESS PARKS

- Total stock for factory space: 38.9 million sq m
- Potential net new supply of 1.3 million sq m in 2020<sup>1</sup>, of which
  - Multi-user factory space accounts for 0.6 million sq m. This includes replacement space intended for lessees affected by JTC's Industrial Redevelopment Programme
  - Business park space accounts for 0.03 million sq m
  - Moderation in quantum of industrial land released through Industrial Government Land Sales Programme since 2013
- Median rents for industrial real estate for 2Q2020<sup>1</sup>
  - Multi-user Factory Space: S\$1.75 psf/mth (-1.1% q-o-q)
  - Business Park Space: S\$4.20 psf/mth (0.0% q-o-q)

### Outlook

#### Singapore

- Challenging operating environment due to COVID-19 pandemic
  - Singapore economy contracted by 13.2% y-o-y in the quarter ended 30 Jun 2020, worsening from 0.3% contraction in the preceding quarter<sup>1</sup>
  - While business confidence remained downbeat for 3Q 2020, it has improved from previous quarter's record low amid the easing of Circuit Breaker measures and the gradual opening of Singapore economy<sup>2</sup>

#### COVID-19 (Temporary Measures) (Amendment) Act (the "Act")

- The Singapore Government expanded the rental relief for small and medium-sized enterprises ("SME"), which includes mandatory one-month rental relief to be provided by industrial landlords for eligible SME tenants who have suffered a significant drop in their average monthly revenue due to COVID-19
- As at 30 Jun 2020, about 55% of MIT's Singapore Portfolio (or 45% of the Overall Portfolio) (by gross rental income) are SME tenants

#### Impact on Singapore Portfolio

- MIT's properties in Singapore had remained open during the Circuit Breaker period from 7 Apr 2020 to 1 Jun 2020 to support tenants who provide essential services. Most of MIT's tenants (by gross rental revenue) have continued or resumed their business operations
- Estimated rental reliefs extended to tenants (COVID-19 Assistance and Relief Programme of up to S\$13.7 million as well as mandated rental reliefs under the Act) would amount to about S\$20 million, which will affect MIT's distributable income for FY20/21
- As at 30 Jun 2020, rental arrears of more than one month stood at 1.0% of previous 12 months' gross revenue. While this was an increase from the rental arrears ratio of 0.2% as at 31 Mar 2020, the Manager is proactively managing the situation by working with these tenants on rental restructuring plans

### Outlook

North America

#### Resilient asset class with growth opportunities

- According to 451 Research<sup>3</sup>, North America is the second largest data centre region in the world, which accounted for about 30% of the global insourced and outsourced data centre space by operational square feet. Leased data centre supply (by net operational square feet) and demand (by net utilised square feet) are expected to grow at a CAGR of 5% and 6% respectively between 2018 and 2024F
- Amid the COVID-19 pandemic, both the United States and Canada have identified data centre workers as essential services. All MIT's 27 data centres in North America had remained open during this period

<sup>&</sup>lt;sup>3</sup> Source: 451 Research, LLC., 1Q2020.

### **Diversified and Resilient**

Stable and Resilient Portfolio	<ul> <li>Anchored by large and diversified tenant base with low dependence on any single tenant or trade sector</li> <li>Long leases in MIT's data centres in Singapore and North America as well as build-to-suit projects to underpin portfolio resilience</li> <li>Focus on tenant retention to maintain a stable portfolio occupancy</li> </ul>
Enhanced Financial Flexibility	<ul> <li>Raised about S\$410.0 million from private placement to fund the US Acquisition</li> <li>Aggregate leverage ratio of 38.8% provides sufficient headroom for investment opportunities</li> </ul>
Growth by Acquisitions and Developments	<ul> <li>Proposed acquisition of the remaining 60.0% interest in the 14 data centres in the United States</li> <li>Commenced works for redevelopment of the Kolam Ayer 2 Cluster</li> </ul>
