May 2021

Important Notice

This presentation shall be read in conjunction with Mapletree Industrial Trust's ("MIT") financial results for Fourth Quarter Financial Year 2020/2021 in the SGXNET announcement dated 29 April 2021.

This presentation is for information only and does not constitute an offer or solicitation of an offer to sell or invitation to subscribe for or acquire any units in Mapletree Industrial Trust ("Units").

The past performance of the Units and MIT is not indicative of the future performance of MIT or Mapletree Industrial Trust Management Ltd. (the "Manager").

The value of Units and the income from them may rise or fall. Units are not obligations of, deposits in or guaranteed by the Manager or any of its affiliates. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested. Investors have no right to request the Manager to redeem their Units while the Units are listed. It is intended that unitholders may only deal in their Units through trading on the Singapore Exchange Securities Trading Limited ("SGX-ST"). Listing of the Units on the SGX-ST does not guarantee a liquid market for the Units.

This presentation may also contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of risks, uncertainties and assumptions. Representative examples of these factors include general industry and economic conditions, interest rate trends, cost of capital, occupancy rate, construction and development risks, changes in operating expenses (including employees wages, benefits and training costs), governmental and public policy changes and the continued availability of financing. You are cautioned not to place undue reliance on these forward-looking statements, which are based on current view of management on future events.

Nothing in this presentation should be construed as financial, investment, business, legal or tax advice and you should consult your own independent professional advisors.

Outlook

North America

Resilient asset class with growth opportunities

- CBRE expects investment in data centres in North America to increase in 2021 based on strong revenue growth projection³. There will also be more supply entering the market due to the increased construction pipeline of 457.8 megawatts ("MW") across primary markets in 2020, compared to 183.0MW in 2019. Out of the 457.8MW under construction, approximately 239MW has been preleased, mainly to hyperscale and cloud service providers, which will continue to make up the bulk of the leasing volume in 2021
- New and evolving technologies such as 5G, edge computing and Internet of Things will continue to drive interest from operators to diversify their portfolios to serve smaller secondary and tertiary markets
